

# April 12, 2024 MKS Group turns 19 years old

April 12, 2024

**On April 12, MKS Group of Companies, the leader of small-scale power engineering in Russia, celebrated its 19th anniversary. The company approached this date with a huge baggage of realized projects, a formed team, and a gained reputation in the industry community. But most importantly, with concrete goals, plans and big ambitions for the future. It is no coincidence that the motto of the festive broadcast dedicated to the ISS Birthday was the words: "Let's not stop".**

Maxim Zagornov, Director of the MKS Group of Companies, opened the festive broadcast, which brought together the company's employees from Moscow, St. Petersburg, Chelyabinsk and Tbilisi. He noted that for 19 years the company has passed all stages of maturation, successfully overcame all economic crises, survived the pandemic, confirmed its leadership in the Russian market by deeds and projects, adapted to the difficult conditions of the current period.

"This year the company has signed a lot of contracts, so the main task for this year is to fulfill all contracts, to put the objects into operation", - Maxim Zagornov noted.

Today MKS Group of Companies is 59 power plants built in different regions of the country with a total capacity of 300 MW, it is an international team of professionals, it is its own production and more than 20 types of manufactured power equipment, it is

universally recognized as a leading company in the field of small-scale distributed power generation in Russia.

"The market is very big - the need for retail generation today is huge. I can say that the prospects for development are great, and we play a prominent role in this market - we are well known. We are fully loaded with work and orders," Maxim Zagornov, ISS Director, emphasized.

During the festive broadcast the company's team was congratulated by MKS Development Director Victoria Zagornova and Finance Director Irina Kovchik. The leading architect and genplanist Roman Namashko from St. Petersburg, ISS Deputy Director Valery Zhikharev from Moscow, and Project Manager Alexander Strizhenkov from Tbilisi contacted the studio.

The culmination of the festive broadcast was the inclusion of the Russian test cosmonaut, Hero of Russia, participant of three space expeditions Oleg Germanovich Artemyev. The legendary cosmonaut, who in 2018 recorded a video greeting to Chelyabinsk power engineers from the International Space Station, this time wished the ISS team confident development: "Only forward! To new achievements!".

During the festive broadcast, the premiere of a video about the MKS Group of Companies - "Let's not stop" - also took place. Employees of the ISS Chelyabinsk office and the production site took part in shooting the video.
