Dance Morning with Monica Bellucci

February 21, 2020

In all Russian offices on February 21, 2020 congratulated men on the coming Defender of the Fatherland Day. And we were no exception. We gave our courageous colleagues a creative meeting with the icon of style and grace, the star of world cinema - Monica Bellucci!

And Monica, in her turn, gave us all bright emotions and a dance master class. In an instant the office of MKS Group turned into a dance floor, the sounds of bocata sounded, the faces of men and women smiled, their movements became smooth and graceful, everyone felt the approach of spring!
