

Jumanji: ISS power engineers have reached a new level!

May 22, 2023

It was an exciting, fascinating, intense, sometimes funny, sometimes difficult, but at every moment - a very unifying journey to Jumanji! The long-awaited spring corporate party of the MKS Group of Companies on the shore of Lake Smolino gathered the most active employees of the company (including colleagues from the St. Petersburg branch of MKS) to go through difficult tests together, show ingenuity, find a magic stone and, in the end, reach a new level!

Jumanji! We did it!

It's great that on a sunny, warm, spring day our relatives were with us, and together we became that very friendly, supportive, motivating and purposeful - MKS community!

Spring recharge took place. The employees of the MKS Group of Companies are ready for new heights! On a completely new - in every sense - level!
