MKC Group of Companies will take part in ADIPEC-2022 and Russian Energy-2022 International exhibitions in Abu Dhabi

October 25, 2022

MKC Group of Companies will take part in the ADIPEC-2022 International Exhibition. The largest event in the oil and gas industry will be held from October 31 to November 3 in Abu Dhabi and will bring together more than 150 thousand experts in the field of energy from 160 countries. At the same site as ADIPEC-2022 – at the Russian Energy exhibition – Russian exporters, including MKC Group of Companies, will present their products.

ADIPEC is the flagship global energy event that annually gathers energy ministers and business leaders from around the world on one platform. This year, the event is taking place amid unprecedented turbulence in the energy market and the global economy. The central theme of ADIPEC-2022 sounds as follows: 'The Future of Energy: Secure, Affordable and Sustainable'.

As reported in the official announcement of the event, ADIPEC-2022 will highlight the balanced approach needed to advance a successful energy transition: fast-tracking decarbonization of today’s energy sources, while diversifying into future energies.

The following are among the most anticipated events of the ADIPEC-2022 business program: a keynote address by H.E. Dr. Sultan bin Ahmed Al Jaber, Minister of Industry and Advanced Technology and Managing Director and Group CEO of the Abu Dhabi National Oil Company (ADNOC); the United Nations' environment report - 'An Eye on Methane'; OPEC's annual World Oil Outlook report.

The business program of ADIPEC-2022 will include a series of conferences providing strategic and technical insights, including the ADIPEC-2022 Strategic Conference and hydrogen-focused sessions. More than 1,200 speakers, including over 40 ministers and chief executive officers of the world's leading energy companies, will participate in the events. More than 2,200 exhibiting companies will present their technological solutions within the framework of the exhibition. 28 pavilions by different countries of the world will operate.

At the same site as ADIPEC-2022 – at the Russian Energy exhibition – 18 Russian exporters, including MKC Group of Companies, will present their products under the Made in Russia brand.

MKC Group of Companies will present its integrated engineering solutions aimed at improving the energy efficiency of enterprises and reducing the emissions of CO2: gas genset and hybrid power plants, mobile methanol and liquefied gas production plants, hydrogen testing grounds and desalination units, energy storage systems, as well as floating power plants providing rapid power supply to areas with limited infrastructure. A series of b2b negotiations with representatives of the Emirati companies, as well as a meeting with the management of the Abu Dhabi National Oil Company (ADNOC) is planned to take place within four days.

Welcome to visit the stand of MKC Group of Companies at the Russian Energy-2022 exhibition at the following address: Abu Dhabi, Abu Dhabi National Exhibition Centre (ADNEC), hall 10, stand No. 10170-10180, Made in Russia exposition.

To participate in ADIPEC, registration at the project’s website is required: www.adipec.com/visit/registration/
