MKS Group of Companies — Official Partner of VIESSMANN

February 6, 2019

An important step in the strategic development of the company. MKS Group has received the status of an official partner of Viessmann Group - one of the world's leading manufacturers of heating/cooling systems and industrial installations. In Russia, the interests of the corporation are represented by Viessmann Russia LLC, with which the MKS Group has concluded a partnership agreement.

The conclusion of this partnership agreement was the result of successful cooperation between the MKS Group of Companies and Viessmann Russia LLC, during which the Chelyabinsk enterprise managed to confirm the high technical and strategic potential of the company.

The status of an official partner will allow MKS Group of Companies to solve the whole range of issues related to the sale of Viessmann boiler equipment, as well as to supplement the list of products of this brand in the company's warehouse in Chelyabinsk. In addition, the Group of companies "MKS" will receive special preferences and an exclusive system of discounts on the products of this brand.

It should be noted that today MKS Group of Companies is the only one in the Urals Federal District and the third in Russia that is an official dealer and service partner of MWM, an official dealer of Bosch Thermotechnics LLC and an official partner of Viessmann Russia LLC, which once again testifies to the high level of professional

competence of MKS Group of Companies and allows the company to build energy facilities using the highest quality European equipment.
